

M. MAAZ KAMAL

AI Security Engineer · Senior SOC Analyst · Security Automation Specialist · Cybersecurity Consultant

muhammadmaazkamel@gmail.com | +92-336-3119749 |  mmaazkamel |  MaazKamal08 | Karachi, PK · Remote / Hybrid

PROFESSIONAL SUMMARY

AI Security Engineer and Senior SOC Analyst with 4+ years of hands-on experience in 24/7 SOC operations, threat detection, incident response, and AI-powered security automation. Proven expertise in SIEM platforms (Wazuh, IBM QRadar, LogRhythm, Microsoft Sentinel), EDR (Kaspersky, Trend Micro), DLP (Zecurion), and firewall management (pfSense, Sophos). Led vendor-side SOC teams, achieved PCI DSS and ISO/IEC 27001:2022 compliance, and engineered Python, PowerShell, and n8n automation workflows for real-time IP blocking, SCA automation, IOC enrichment, phishing simulation, and SOC reporting — reducing MTTD by 35% and eliminating manual analyst intervention for routine threats.

WORK EXPERIENCE

Senior Information Security Analyst & AI Security Engineer (SOC Lead)

Oct 2024 – Present

Keenu.pk | Karachi, Pakistan (On-site)

- Lead a 24/7 vendor-side SOC team of L1 and L2 analysts triaging 60–80 security alerts/day across endpoint, network, and cloud attack surfaces using Wazuh and LogRhythm SIEM.
- Serve as AI Security Analyst — integrated AI-assisted triage workflows automating IOC enrichment, alert classification, and escalation routing using Python and n8n; saving 2+ analyst-hours per shift.
- Engineered real-time IP blocking pipeline: Wazuh detects threat → n8n cross-validates via VirusTotal & AbuseIPDB → auto-pushes block rules to pfSense and Sophos Firewall — full cycle under 90 seconds with zero manual intervention.
- Designed and deployed SmartPhish — an AI-powered phishing detection, simulation, and awareness platform — running organisation-wide phishing simulation campaigns, measuring employee susceptibility, and auto-assigning targeted security awareness training based on individual results; integrated with HR systems for compliance reporting.
- Reduced MTTD by ~35% through Wazuh and LogRhythm SIEM correlation rule tuning, custom dashboards, and automated playbook execution.
- Spearheaded PCI DSS compliance programme achieving certification within 6 months using NIST CSF and MITRE ATT&CK frameworks.
- Led ISO/IEC 27001:2022 compliance implementation — conducted gap assessments, maintained ISMS documentation, and drove internal audit processes across all departments.
- Managed Kaspersky EDR across 200+ endpoints — contained 3 ransomware-adjacent incidents with zero data loss; administered Zecurion DLP blocking 12+ exfiltration attempts.
- Performed SCA on Windows Server and Linux hosts; after one year automated the entire process using PowerShell and Bash, eliminating all manual assessment effort.

Information Security Analyst (SOC Analyst)

Jan 2023 – Sep 2024

CommTel | Karachi, Pakistan (On-site)

- Monitored and investigated 40–60 alerts/day in a 24/7 SOC environment using IBM QRadar and Wazuh SIEM; operated as L2 analyst for first 3 months before full promotion.
- Tuned Snort-based IDS/IPS rules and next-gen firewalls, reducing false-positive alert rate by 25% over 6 months.
- Conducted threat intelligence analysis using OSINT and IOC feeds, identifying and blocking 3 active APT-like campaigns across 5+ log sources.
- Authored 8 incident response playbooks (NIST IR framework), reducing average containment time from 4 hours to 90 minutes.
- Executed vulnerability scans across 150+ hosts; triaged CVSS 7.0+ findings and managed remediation tracking with asset owners.
- Led ISO/IEC 27001:2022 compliance programme — maintained ISMS documentation, conducted risk assessments, and facilitated internal policy audits across 4 departments.

Trainee SOC Analyst

Jan 2022 – Mar 2022

Trillium Information Security Systems | Karachi, Pakistan (On-site)

- Completed 3-month SOC analyst training covering threat detection, SIEM log correlation, alert triage, and incident escalation across 15+ simulated scenarios.

TECHNICAL SKILLS

SIEM / Log Mgmt	Wazuh (expert), IBM QRadar, LogRhythm SIEM (intermediate), Microsoft Sentinel (beginner), Log Correlation, Alert Triage, Rule Tuning
EDR / Endpoint	Kaspersky EDR, Trend Micro (intermediate), Windows Defender ATP, CrowdStrike (familiar), Endpoint Threat Containment
DLP / Data Prot.	Zecurion DLP, Policy Configuration, Email & Removable Media Exfiltration Detection
Phishing & Awareness	SmartPhish (custom-built), Phishing Simulation Campaigns, Employee Susceptibility Scoring, Awareness Training Assignment, Proofpoint Security Awareness
Firewall / Network	pfSense, Sophos Firewall, Snort/Suricata (IDS/IPS), Wireshark, NGFWs, Packet Inspection, Network Traffic Analysis
Cloud Security	Microsoft Azure Sentinel (intermediate), AWS Security Hub (familiar), Cloud Log Monitoring, Cloud IAM Fundamentals
Operating Systems	Windows 10/11/Server 2016–2022 (AD, GPO, Event Viewer) Linux: Ubuntu, CentOS, RHEL (Bash, syslog, auditd) Kali Linux (Nmap, Metasploit, Burp Suite, Nikto)
Scripting / Autom.	Python, Bash, PowerShell, n8n (SIEM integration, IP blocking, playbook automation), REST API, Webhooks
AI & Security Autom.	LLM-assisted triage, n8n SOC workflows, AI alert enrichment, phishing detection ML pipeline, security automation (Python/n8n)
Threat Intelligence	OSINT, IOC Analysis, Threat Hunting, VirusTotal, AbuseIPDB, MISP (familiar), CTI, Cyber Threat Hunting
Frameworks	MITRE ATT&CK, NIST CSF, Zero Trust Architecture, PCI DSS, ISO/IEC 27001:2022, CIS Benchmarks, OWASP Top 10, SOAR
Vuln. Management	CVSS Scoring, OpenVAS, Nessus (familiar), VAPT, SCA, Remediation Tracking, Threat Modeling
Incident Response	Playbook Development, Alert Triage, Containment, Eradication, Root Cause Analysis, Post-Incident Reporting
Critical Infra	OT/ICS Security (OPSWAT CIP), Industrial Network Segmentation, Infrastructure Security

NOTABLE PROJECTS

SmartPhish — AI Phishing Detection, Simulation & Awareness Platform *(Private)*

- Custom-built internal platform combining phishing email detection ML pipeline + employee simulation campaigns + auto-assigned awareness training — deployed at Keenu.pk with full compliance reporting.
- Analyses email headers, body content, and URLs to classify phishing attempts; simulation engine sends controlled phishing scenarios and scores employee click/report rates for targeted training assignment.

Automated IP Blocking Pipeline — Wazuh + pfSense + Sophos (n8n)

- Real-time threat response: Wazuh alert → n8n validates via VirusTotal & AbuseIPDB → auto-blocks on pfSense and Sophos in under 90 seconds with full audit trail. Eliminated 100% of manual IP-block tasks.

SOC AI Triage Automation — Python, Wazuh API, n8n, LLM

- LLM pipeline auto-generating L1 analyst notes, IOC enrichment, and escalation decisions from raw Wazuh alerts — saving 2 analyst-hours/shift; actively processing production alerts at Keenu.pk.

FirewallAI — Intelligent Firewall Rule Engine *(Private)*

- AI system that analyses threat context and auto-generates, validates, and applies firewall rules — reducing manual rule management and response overhead significantly.

EDUCATION

Bachelor of Software Engineering (BSE)

Jan 2020 – Dec 2023

University of Karachi — UBIT, Dept. of Computer Science | Karachi, Pakistan

Intermediate — Pre-Engineering (FSc)

Aug 2017 – Aug 2019

DJ Sindh Government Science College | Karachi, Pakistan

CERTIFICATIONS & LICENCES

n8n Automation — Level 1 — n8n | Nov 2025 (ID: 90b688bd)

SOC Summit 2026 — Antisyphon Training | Mar 2026 (ID: 260dd91d)

AI Governance & Compliance — Securiti | *In Progress*

Claude 101 — Anthropic Skills | *In Progress*

Certified Cybersecurity Educator Professional (CCEP) — Red Team Leaders | *Nov 2025* (ID: b442ad36)

Intro to Critical Infrastructure Protection — OPSWAT Academy | *Oct 2025–2026* (ID: p7TiYHWi3g)

Security Awareness Specialist — Proofpoint | *Jul 2025–2027*

ISO/IEC 27001:2022 Information Security Associate — SkillFront | *Sep 2024* (ID: 01042343391568)

Intro to Deep Learning — Kaggle | *Jul 2025*

Intro to Machine Learning — Kaggle | *Mar 2025*

Google Soft Skills Program — Google | *Aug 2024* (ID: 3207161155385963)

Introduction to Cybersecurity — Cisco Networking Academy | *May 2022* (ID: 541dd995)

Cybersecurity Fundamentals — IBM | *Aug 2022*

Learning the OWASP Top 10 — LinkedIn Learning | *Aug 2022*

CompTIA Security+ (Exam Prep completed) — Pluralsight | *2024*

CURRENTLY PURSUING

CEH — Certified Ethical Hacker — Corvit Systems — in progress

CompTIA Security+ — Exam sitting in progress — Pluralsight prep completed

CORE COMPETENCIES & TOOLS

Threat Detection	Wazuh (expert), IBM QRadar, LogRhythm SIEM, Microsoft Sentinel (beginner), MTTD/MTTR reduction, IOC analysis
Security Automation	n8n workflows, Python scripting, PowerShell/Bash SCA automation, AI-assisted SOC triage, LLM alert summarisation
Phishing & Awareness	SmartPhish platform, simulation campaigns, susceptibility scoring, awareness training assignment, Proofpoint
Endpoint & DLP	Kaspersky EDR, Trend Micro EDR, Zecurion DLP, Windows Defender ATP, endpoint containment, exfiltration detection
Compliance	PCI DSS, ISO/IEC 27001:2022, NIST CSF, MITRE ATT&CK, CIS Benchmarks, Zero Trust Architecture
Network Security	pfSense, Sophos Firewall, Snort/Suricata IDS/IPS, Wireshark, packet inspection, NGFW management
Soft Skills	SOC team leadership (L1 & L2), incident escalation management, stakeholder reporting, cross-functional collaboration

KEY ACHIEVEMENTS

- Reduced SOC MTTD by 35% through Wazuh and LogRhythm SIEM correlation tuning and automated playbook execution
- Achieved PCI DSS certification within 6 months at Keenu.pk — first vendor-side SOC to do so in the organisation
- Led ISO/IEC 27001:2022 compliance at both Keenu.pk and CommTel — full ISMS lifecycle at both organisations
- Built and deployed SmartPhish — running live phishing simulation and awareness training campaigns organisation-wide
- Engineered real-time IP blocking pipeline: Wazuh → n8n → pfSense/Sophos in under 90 seconds
- Automated SCA process using PowerShell/Bash scripting, eliminating all manual assessment effort
- Contained 3 ransomware-adjacent incidents with zero data loss across 200+ managed endpoints
